TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

[SFAW Reg. 18, Amdt. 1]

PART 602—GENERAL ORDERS AND DIRECTIONS

PENNSYLVANIA ANTHRACITE

Since the issuance of SFAW Regulation No. 18, it has become necessary to include that size of anthracite known as No. 2 buckwheat (rice) within its provisions. It has also become necessary to provide a method whereby shipments of No. 1 and No. 2 buckwheat by producers and wholesalers to retail dealers may be accelerated under certain conditions; to impose restrictions upon the shipment of anthracite for industrial use; and to make other minor amendments designed to clarify the regulation. Accordingly, SFAW Regulation No. 18 is hereby amended in the following respects:

1. Paragraphs (a), (g), (l), (m), (o), (p) and (r) of § 602.331 are amended to read as follows:

(a) "Anthracite" means that coal which is generally referred to as Pennsylvania anthracite produced or prepared in the following counties in Pennsylvania: Carbon, Columbia, Dauphin, Lebanon, Lackawanna, Luzerne, Northumberland, Schuylkill, Susquehanna and Wayne; and for the purposes of this regulation is limited to the following sizes: broken, egg, stove, chestnut, pea, No. 1 buckwheat and No. 2 buckwheat (rice).

(g) "Retail dealer" means any person (including the retail outlet, branch or department of one who is also a producer, wholesaler or lake dock operator) to the extent that he acts in the capacity of a supplier, shipper, or seller of anthracite in any transaction, except a wholesale transaction, involving a shipment, sale, or sale and delivery, of broken bulk anthracite physically handled in a truck, wagon, or other less than carload facility, without regard to quantity or frequency of delivery.

(l) "Industrial process or the production of power" includes without limitation any manufacturing or commercial processing, the generation of electrical energy for resale or otherwise, and the ordinary operations of a commercial bakery or laundry. Industrial process or the production of power does not include the ordinary operations of the following, among others: apartment houses, hotels (exclusive of functions as restaurant), schools and office buildings.

(m) "Local sales in the producing region" means all sales or deliveries of anthracite at retail to consumers (other than mine employees) within the following townships and boroughs in the ten counties specified in paragraph (a) of this section:

Carbon County: Townships: Banks, Lehigh, Mahoning, Mauch Chunk, and Packer. Boroughs: Mauch Chunk and East Mauch Chunk.

Columbia County: Townships: Beaver, Conyngham, Locust, Mifflin, and Roaring Creek.

Dauphin County: Townships: Jackson, Jefferson, Lykens, Rush, Wiconisco, and Williams.

Lackawanna County: All townships.

Lebanon County: Cold Spring township only.

Luzerne County: All townships except Ross, Fairmont and Huntington.

Northumberland County: Townships: Coal, East Cameron, West Cameron, Mount Carmel, Upper Mahoney, and Zerbe.

Schuylkill County: All townships.

Susquehanna County: Clifford township only.

Wayne County: Townships: Clinton and Canaan.

(o) "Base period" means the period from April 1, 1942 to March 31, 1943, inclusive, except that with respect to No. 2 buckwheat (rice) the base period in respect to shipments to destinations in the United States means the period April 1, 1943 to March 31, 1944, inclusive. Under this definition the base period with respect to No. 2 buckwheat (rice) shipments to destinations in the Dominion of Canada is the period April 1, 1942 to March 31, 1943, inclusive.

(p) "Base period tonnage" means the total number of tons of anthracite shipped by any person to any person during the base period, except excludable tonnage as defined in this regulation. Base period tonnage consists of three separate tonnages for all statistical and regulatory purposes, as follows:

(i) A total base period tonnage for the following sizes: broken, egg, stove, chestnut and pea;

(ii) A base period tonnage for No. 1 buckwheat; and

(iii) A base period tonnage for No. 2 buckwheat (rice). The persons as between whom base period tonnages are established under this regulation are specified in §§ 602.334, 602.336, 602.337 (b), 602.339, 602.340 and 602.341.

(r) "Available tonnage" means the total tonnage of anthracite which a producer or wholesaler has in any calendar month for distribution after deducting the tonnage lawfully shipped or scheduled for shipment in that calendar month as follows:

(i) Pursuant to Solid Fuels Administration for War directions;

(ii) As excludable tonnage;

(iii) To mine employees to the extent permitted by § 602.333;

(iv) On local sales in the producing region to the extent permitted by § 602.334;

(v) To timber truckers in the manner and to the extent permitted by § 602.335;

(vi) To consumers in the manner and to the extent permitted by § 602.345.

2. Section 602.336 (a) is amended to read as follows:

(a) *Distribution by producer or wholesaler to equipped retail dealers (except deliveries moving by truck from mine or preparation plant).* (1) Except as otherwise provided in paragraphs (b) and (c) of this section and subparagraphs (2) and (3) of this paragraph

(a), each producer and wholesaler (including a lake dock operator) shall arrange his schedule for the distribution of his available tonnage (exclusive of deliveries by truck from a mine or preparation plant which are governed by paragraph (d) of this section) so that during the period April 1, 1944 to March 31, 1945, inclusive, on the basis, to the maximum extent practicable, of regular equal monthly shipments, he shall have supplied anthracite—except No. 2 buckwheat (rice)—to each equipped retail dealer in the United States and Canada, up to but not in excess of 90 percent of the base period tonnage, as adjusted, established between such producer or wholesaler and each such equipped retail dealer.

(2) From and after June 1, 1944, each producer and each wholesaler shall arrange his schedule for the distribution of his available tonnage of No. 2 buckwheat (rice) so that during the period June 1, 1944 to March 31, 1945, inclusive, on the basis, to the maximum extent practicable, of regular equal monthly shipments, he shall have supplied to each equipped retail dealer in the United States and Canada up to but not in excess of 75 percent of the base period tonnage, as adjusted, established between such producer or wholesaler and each such equipped retail dealer.

Shipments of No. 2 buckwheat (rice) to persons in the United States and Canada during the months of April and May 1944 shall not be taken into account in computing the amount of excess tonnage which producers and wholesalers may have to distribute pursuant to §§ 602.337 and 602.338 of this regulation. However, for the period April 1, 1944 to March 31, 1945, inclusive, no producer or wholesaler shall have shipped to any equipped retail dealer a tonnage of No. 2 buckwheat (rice) in excess of the base period tonnage established between such producer or wholesaler and such equipped retail dealer. For the period April 1, 1944 to March 31, 1945, inclusive, no equipped retail dealer may receive from all sources combined a tonnage of No. 2 buckwheat (rice) which exceeds the sum of the base period tonnages established between such equipped retail dealer and each of the producers and wholesalers who supplied him during the base period.

(3) In the event that a producer or wholesaler is unable to make equal monthly shipments to an equipped retail dealer who advises in writing that he does not have storage facilities to accommodate all of the tonnage of either No. 1 buckwheat or No. 2 buckwheat (rice) which may be shipped to him pursuant to § 602.336 (a), and that he cannot dispose of such coal upon receipt, such producer or wholesaler may accelerate shipments of either No. 1 buckwheat or No. 2 buckwheat (rice) to other equipped retail dealers prior to October 1, 1944, without regard to equal monthly shipments to such equipped retail dealers. However, in no event shall the total tonnage shipped to each equipped retail dealer during the period April 1, 1944 to March 31, 1945, inclusive, exceed the total tonnage permitted by this regulation to

be shipped by such producer or wholesaler to each such equipped retail dealer. In addition, the total tonnage of either No. 1 buckwheat or No. 2 buckwheat (rice) shipped by such producer or wholesaler to equipped retail dealers in the aggregate in any calendar month shall in no event exceed one-twelfth of the total tonnage permitted by this regulation to be shipped by such producer or wholesaler to equipped retail dealers in the aggregate to March 31, 1945.

3. Section 602.336 (d) is amended to read as follows:

(d) *Distribution by producer or wholesaler of anthracite moving by truck from mine or preparation plant (except sales to mine employees, local sales and sales to timber truckers).* This paragraph governs the distribution of anthracite (except that referred to in §§ 602.333, 602.334, and 602.335) moving by truck from a mine or preparation plant located in any of the counties designated in § 602.331 (a). Each person who received anthracite by such method of transportation during the base period shall be deemed to have an established base period tonnage with the producer or wholesaler from whose mine or preparation plant the anthracite was received. In the event that such a person distributed such anthracite to retail dealers in the base period, he shall be required to distribute such anthracite to retail dealers with whom he has an established base period tonnage in accordance, so far as practicable, with the provisions of paragraph (a) of this section.

(This section does not govern the distribution of anthracite by a truck which is loaded at a point outside of the townships and boroughs designated in § 602.331 (m) and which is delivered at a point outside of those townships and boroughs. Such distribution is governed by § 602.339 entitled "Distribution by Equipped Retail Dealer to Unequipped Retail Dealers.")

(1) Each producer and wholesaler shall arrange his schedule for the distribution of his available tonnage of anthracite—except No. 2 buckwheat (rice)—for shipment by truck to each person with whom he has an established base period tonnage for truck shipments so that during the period April 1, 1944 to March 31, 1945, inclusive, he shall have supplied to each such person, on the basis, to the maximum extent practicable, of regular equal monthly shipments up to but not in excess of 90 percent of the base period tonnage, as adjusted, of each such person.

(2) From and after June 1, 1944, each producer and wholesaler shall arrange his schedule for the distribution of his available tonnage of No. 2 buckwheat (rice) for shipment by truck to each person with whom he has an established base period tonnage for truck shipments of such coal, so that by March 31, 1945, on the basis, to the maximum extent practicable, of regular equal monthly shipments to that date, he shall have supplied each such person up to but not in excess of 75 percent of the base period tonnage, as adjusted, of each such person.

(3) If in any calendar month during the period April 1, 1944 to March 31, 1945, inclusive, a person who has an established base period tonnage for truck shipments fails to send trucks to a mine or preparation plant to receive his proportionate share of the available tonnage of the producer or wholesaler with whom he has established such a base period tonnage, such producer or wholesaler may, subject to the restrictions of this regulation, distribute to retail dealers a tonnage equivalent to such undelivered tonnage. However, if a person demonstrates to the satisfaction of the appropriate Regional Representative of SFAW that after diligent effort he is unable to obtain trucks to haul his monthly quota of anthracite from a mine or preparation plant, then the producer or wholesaler may, with the approval of the appropriate Regional Representative, ship such tonnage to such person by any other reasonable mode of transportation either directly or through a wholesaler chosen by the producer and upon direction of SFAW shall make such shipments.

(4) If a producer or a wholesaler does not have records which establish a base period tonnage of a person receiving anthracite by truck, such producer or wholesaler may distribute anthracite to such person for shipment by truck: *Provided*, That the aggregate tonnage of truck shipments by such producer or wholesaler to all persons does not in any calendar month during the period April 1, 1944 to March 31, 1945, inclusive, exceed one-twelfth of 90 per cent of the aggregate base period tonnage, as adjusted, of truck shipments by such producer or wholesaler to all such persons.

(5) Before making any distribution for shipment by truck pursuant to this paragraph, a producer or wholesaler shall first obtain the following statement, filled out and signed by the driver of the truck:

4. Section 602.339 is amended to read as follows:

§ 602.339 *Distribution by equipped retail dealer to unequipped retail dealers.* (a) Each equipped retail dealer (including a lake dock operator or a tidewater dock operator) shall arrange his distribution schedule so that during the period April 1, 1944 to March 31, 1945, inclusive, on the basis, to the maximum extent practicable, of regular equal monthly shipments, he shall have supplied anthracite—except No. 2 buckwheat (rice)—to each unequipped retail dealer up to but not in excess of 90 percent of the base period tonnage, as adjusted, established between such equipped retail dealer and such unequipped retail dealer.

(b) From and after June 1, 1944, each equipped retail dealer (including a lake dock operator or a tidewater dock operator) shall arrange his schedule for the distribution of his available tonnage of No. 2 buckwheat (rice) so that by March 31, 1945, on the basis, to the maximum extent practicable, of regular equal monthly shipments to that date, he shall have supplied to each unequipped retail dealer up to but not in excess of 75 percent of the base period tonnage, as adjusted, established between such equipped retail dealer and such unequipped retail dealer.

(c) If in any calendar month an equipped retail dealer's available tonnage is not sufficient to enable him to supply, pursuant to paragraphs (a) and (b) of this section, each unequipped retail dealer to whom he supplied anthracite in the base period, with the appropriate monthly portion of the base period tonnage, as adjusted, of each such unequipped retail dealer, such equipped retail dealer shall, during that month, apply a uniform percentage of reduction in shipments to each of his unequipped retail dealers.

(d) If in any calendar month during the period April 1, 1944 to March 31, 1945, inclusive, an unequipped retail dealer fails to send trucks to the yard of the equipped retail dealer to receive his proportionate share of the available tonnage of the equipped retail dealer with whom he has an established base period tonnage, such equipped retail dealer may, subject to the restrictions of applicable regulations, distribute to other unequipped retail dealers or to consumers a tonnage equivalent to such undelivered tonnage.

5. Section 602.341 is amended to read as follows:

§ 602.341 *Receipts by retail dealers restricted.* Except as provided in

§ 602.336 (a) (2) and (3) and paragraph (e) of § 602.338, no retail dealer may receive (1) from all sources combined a tonnage of anthracite which either exceeds 90 percent of the sum of his base period tonnage, as adjusted, established between such retail dealer and each of the producers, wholesalers or equipped retail dealers who supplied him during the base period or (2) any anthracite which a producer, wholesaler or equipped retail dealer is not authorized to ship under this regulation.

No retail dealer may receive anthracite except on condition that he will distribute it in accordance with SFAW Regulation No. 17, or other applicable regulations of SFAW.

6. A new § 602.343 is added, to read as follows:

§ 602.343 *Restrictions upon distribution by producers and wholesalers of anthracite for industrial use or production of power.* (a) During the period April 1, 1944 to March 31, 1945, inclusive, no producer or wholesaler may ship to any person and no person may acquire from all sources combined, anthracite for use in an industrial process or for the production of power or for space heating which is incidental thereto, in an amount which, when added to the anthracite in the possession or under the control of such person, exceeds the consumption requirements of such person for such purposes for a period of ninety days from the date of such shipment.

(b) During the period April 1, 1944 to March 31, 1945, inclusive, no producer, wholesaler or retail dealer may ship anthracite to any person in Canada for use in an industrial process or for the production of power or for space heating which is incidental thereto, in an amount which, when added to the anthracite in the possession or under the control of the person acquiring anthracite for such purpose, exceeds the consumption requirements of such person for such purpose for a period of ninety days from the date of such shipment: *Provided*, That the total of such shipments made during the period April 1, 1944 to March 31, 1945, inclusive, shall not exceed 90 percent of the consumption requirements of such person for such purpose during that period.

7. A new § 602.344 is added, as follows:

§ 602.344 *Restrictions upon distribution of excludable tonnage by producers and wholesalers.* (a) Unless required by § 602.336 of this regulation to make shipments out of the available tonnage of anthracite to a particular equipped retail dealer or to a particular person who receives anthracite by truck from a mine or preparation plant, a producer or wholesaler shall not ship any excludable tonnage to such an equipped retail dealer or person without first obtaining the written permission of SFAW.

(b) During the period April 1, 1944 to March 31, 1945, inclusive, no producer or wholesaler may ship excludable ton-

nage to any equipped retail dealer or to any person who receives anthracite by truck from a mine or preparation plant pursuant to § 602.336 (d) of this regulation in excess of the total excludable tonnage shipped by such producer or wholesaler to such equipped retail dealer or person during the period April 1, 1943 to March 31, 1944, inclusive, unless and until the producer or wholesaler has been notified by SFAW that (1) the retail dealer has filed a written statement in duplicate with the appropriate Regional Representative of SFAW, setting forth, among other things, the name and address of the consumer who claims to need the increased tonnage; the use to which such anthracite will be put; the tonnage of each size required; and the name and address of the producer or wholesaler that will supply the coal; and (2) SFAW has authorized the shipment of such tonnage.

8. A new § 602.345 is added as follows:

§ 602.345 *Distribution by producers or wholesalers to consumers other than mine employees and consumers on local sales in the producing region.* A producer or wholesaler may ship anthracite to a consumer (other than mine employees and consumers on local sales in the producing region) in amounts limited to what the consumer may receive pursuant to the provisions of SFAW Regulation No. 17: *Provided, however,* That the restrictions of § 602.304 (a) of that regulation shall not apply to rail shipments to consumers whose annual requirements amount to only one railroad car and who customarily receive anthracite in a railroad car lot. Each producer and wholesaler who ships or delivers anthracite to a consumer shall obtain from such consumer a Consumer Declaration upon the form prescribed by SFAW Regulation No. 17 and in accordance with the provisions thereof.

9. Existing § 602.343 is re-numbered § 602.346 and is amended to read as follows:

§ 602.346 *Producers and wholesalers to advise retail dealers of base period tonnages and adjustments.* (a) Each producer and wholesaler, on or before the 25th day of April, 1944, shall notify each retail dealer to whom he made shipments during the base period of the actual tonnage of anthracite—except No. 2 buckwheat (rice)—shipped during the base period, including any adjustments thereof approved by SFAW. One copy of such notice shall be forwarded to the Regional Representative of SFAW for the region in which the dealer has his place of business and one copy of such notice shall be forwarded to the Solid Fuels Administration for War, Washington 25, D. C. The figures shown on such notification shall be subject to review, and may be increased or decreased, by SFAW.

(b) Each producer and wholesaler, on or before the 25th day of June 1944, shall notify each retail dealer to whom he made shipments during the base period of the actual tonnage of No. 2 buckwheat (rice) shipped during the base period. One copy of such notice shall be forwarded to the Regional Representative of

SFAW for the region in which the dealer has his place of business, and one copy of such notice shall be forwarded to the Solid Fuels Administration for War, Washington 25, D. C. The figures shown on such notification may be increased by SFAW upon approval of an application filed pursuant to § 602.349.

10. Existing § 602.344 is re-numbered § 602.347 and paragraph (a) is amended by the addition of the following:

The report shall also set forth as a separate total the tonnages of No. 2 buckwheat (rice).

11. Existing § 602.345 is re-numbered § 602.348.

12. A new § 602.349 is added, to read as follows:

§ 602.349 *Adjustments of base period tonnage of No. 2 buckwheat (rice).* Because the base period of No. 2 buckwheat (rice) is different in the United States from the base period for the other regulated sizes and because shipments of this size have been almost entirely unregulated, some dealers may feel that inequities will result from this amendment. Therefore, SFAW will grant an equitable upward adjustment of the base period tonnage of No. 2 buckwheat (rice) of any retail dealer in the United States, or any person who receives anthracite by truck from a mine or preparation plant pursuant to § 602.336 (d) of this regulation, who demonstrates that (1) he received substantially less tonnage of this size during the period April 1, 1943 to March 31, 1944, than he received during the corresponding period April 1, 1942, to March 31, 1943, and (2) unless his base period tonnage of this size is adjusted upward, hardship will result to consumers he supplies with this size in the community he serves. Applications for such adjustments shall be filed in triplicate prior to August 25, 1944 with the Regional Representative of SFAW for the Region in which the retail dealer has his place of business. In no event will SFAW approve an upward adjustment that will result in a tonnage in excess of the total number of tons received by the applicant during the period April 1, 1942 to March 31, 1943, inclusive.

13. Existing § 602.346 is re-numbered § 602.350.

14. Existing § 602.347 is re-numbered § 602.351 and is amended to read as follows:

§ 602.351 *Producers or wholesalers without a base period tonnage.* Any producer or wholesaler who did not make shipments of anthracite during the base period shall make shipments only (1) to or for the account of another producer or wholesaler who made shipments of anthracite to retail dealers during the base period or (2) upon specific direction of SFAW.

15. Existing §§ 602.348, 602.349, 602.350, 602.351, 602.352, and 602.353 are re-numbered §§ 602.352, 602.353, 602.354, 602.355, 602.356 and 602.357, respectively.

16. A new § 602.358 is added, to read as follows:

§ 602.358 *Damages for breach of contract.* No person shall be held liable

under any contract for damages or penalties for any default which shall result directly or indirectly from compliance with this regulation.

17. Existing §§ 602.354, 602.355, 602.356 and 602.357 are re-numbered §§ 602.359, 602.360, 602.361 and 602.362, respectively.

18. Existing § 602.358 is re-numbered § 602.363 and is amended to read as follows:

§ 602.363 *Short title.* This regulation may be cited as SFAW Regulation No. 18, as amended.

This amendment shall become effective at 12:01 a. m., June 1, 1944.

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-556]

SUN COMPANY

Jacob L. Sohn, doing business as Sun Company, in Providence, Rhode Island, is a jewelry manufacturer. During the period between February 25 and July 1, 1943, having a quota under Conservation Order M-199 of 429.12 ounces of domestic silver, he purchased, received, and put into process for restricted uses 570.88 ounces in excess of his quota; during the third quarter of 1943, with a quota of 321.84 ounces, he purchased, received, and put into process for restricted use 3,678.16 ounces in excess of his quota; and in the fourth quarter, with a quota of 321.84 ounces he purchased and received for restricted uses 6,078.16 ounces in excess of his quota, and put into process for restricted uses 3,160.16 ounces in excess of his quota. During the period between February 17 and June 7, 1943, he purchased, received, and put into process for restricted uses, to fill unrated orders, 9,828.14 ounces of foreign silver as defined in Order M-199; all the purchases were made without the certifications or endorsements on the purchase orders required by the order. Mr. Sohn was familiar with Conservation Order M-199 and the quota it established. The purchase, receipt, and putting into process of silver in excess of the quota was in violation of the order, and the violations were wilful.

These violations of Order M-199 diverted critical materials to uses not au-

thorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.556 *Suspension Order No. S-556.* (a) Jacob L. Sohn, doing business as Sun Company, or otherwise, his agents and assigns, shall not purchase, accept delivery of, or put into process any silver as defined in Conservation Order M-199, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Jacob L. Sohn, doing business as Sun Company, or otherwise, his agents or assigns, from any restriction, prohibition or provision con-

tained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on May 30, 1944, and shall expire on September 30, 1944.

Issued this 23d day of May 1944.

¹ Refiners requiring copper-clad or copper-base alloy-clad steel scrap should apply by supplementary letter setting forth the copper raw material involved, the amount required, and other pertinent data such as inventory, receipts, production, consumption and shipments, on the basis of which authorization to accept delivery is requested.

² Forms WPB-3244 and WPB-3113 apply only to beryllium copper brass mill products.

³ Foundries and ingot makers may exchange copper-base alloy ingot on an equivalent copper content basis without charging such deliveries against their authorizations.

(c) *Restriction on disposal of scrap and copper-clad and copper-base alloy-clad steel scrap.* (1) No person (other than one who is in the business of producing copper raw materials or copper controlled materials) shall melt or process any scrap or copper-clad or copper-base alloy-clad steel scrap, generated in his plant through fabrication or accumulated in his operations through obsolescence, except as specifically authorized by the War Production Board, or dispose of such material in any way other than by delivery to a person authorized to accept such delivery. In no event shall any such person keep on hand more than thirty (30) days' accumulation of scrap or copper-clad or copper-base alloy-clad steel scrap unless such accumulation aggregates less than five tons.

(2) No person shall dispose of any material, the delivery of which he accepted as scrap, other than as scrap except with the specific authorization of the War Production Board in writing.

(3) Nothing herein contained shall prohibit any public utility from using in its own operations wire or cable which has become scrap by obsolescence, provided the lengths of such wire or cable are in excess of five feet and the quantity of such material so used by such public utility in any calendar month does not exceed five tons.

(d) *Specific authorization and directions.* This order is designed to prescribe the general regulations under which deliveries of copper raw materials may be accepted. At times the provisions of this order will not fit the needs of a particular person. In any such case, the person affected may apply by letter to the Copper Division, War Production Board, for a specific authorization to cover his needs. Situations may arise which will require the War Production Board, from time to time, to issue specific authorizations or directions to a person as to the source, destination,

amount or grade of copper raw materials to be delivered, acquired or used by him.

(e) *Definitions.* (1) "Copper" means unalloyed copper.

(2) "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy. Copper-base alloy does not include alloyed gold produced in accordance with United States Commercial standards CS 51-35 and CS 67-38.

(3) "Scrap" means all copper or copper-base alloy materials or objects (except those containing 0.10% or more beryllium and governed by supplemental order M-160a) which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason. This does not include fired cartridge and artillery cases or copper-clad or copper-base alloy-clad steel scrap.

rating to get materials or equipment for a minor capital addition, where the cost of the minor capital addition does not exceed \$100 "excluding the purchaser's cost of labor".

This means that the cost of the materials or equipment going into the minor capital addition must not exceed \$100. The cost of labor for the manufacture of the materials or equipment must be included in figuring their cost. The cost of labor used in construction or installation of the minor capital addition need not be included.

This applies whether the agency or institution uses its own employees to do the construction or installation work or hires an independent contractor to supply this construction or installation labor.

It also applies where the agency or institution gets an independent contractor to furnish the materials and the labor for the job, and where the agency or institution buys a machine or other article and has the seller do the work of installation.

NOTE: This interpretation is substantially similar to Interpretation No. 11 to CMP Regulation No. 5, issued May 22, 1944.

Issued this 31st day of May 1944.

These requirements shall be divided between original equipment and replacement for each group and sub-group.

In addition, each claimant agency shall furnish to the Office of Rubber Director its estimated requirements for each group and sub-group for the following three quarterly periods.

(2) Upon the basis of requirements submitted by each claimant agency to the Office of Rubber Director, War Production Board will allot on or before the 15th day of the second month preceding the quarter to be covered by the allotment, to each claimant a quantity of tires by groups and sub-groups for the following quarterly period and shall also make tentative allotments to each claimant for the following three quarterly periods.

(3) Within 5 days after receipt of its allotment, each claimant agency shall furnish to the Office of Rubber Director a statement showing the break-down of its allotment by group and sub-group between original equipment and replacement.

(e) *Issuance of production directives to producers.* Not later than 10 days after the time prescribed in the preceding paragraph for the issuance of allotments to the claimant agencies, War Production Board will issue to each producer a directive for the period covered by the allotments, prescribing the percentage of the producer's facilities by groups and sub-groups allocated to the production of the following classes of orders:

(1) Original equipment; (2) replacement by military claimants; (3) indirect military replacement.

"Indirect Military" refers to claimants not designated as military claimants in paragraph (b) (4).

(f) [Deleted May 31, 1944]

Original Equipment

(g) *Vehicle manufacturer's authorization.* (1) Each manufacturer of vehicles or equipment listed in Table I must file his application for original equipment tires on Form WPB-3663 with the appropriate industry division of the War Production Board in accordance with instructions accompanying the form, unless he is specifically excused from filing. A manufacturer of vehicles or equipment not listed in Table I need not file Form WPB-3663, unless he is specifically instructed to do so.

(2) On or before the first day of the month preceding each quarter, manufacturers of vehicles and equipment listed in Table I for which tires have been allotted, will be authorized by the War Production Board on Form GA-1733 to accept delivery of a specified number of tires by group and sub-group. In the case of tire mounted vehicles or equipment not listed in Table I, similar authorizations will be issued to vehicle manufacturers by the appropriate claimant agency.

(3) No manufacturer may accept delivery of tires for his production of vehicles or equipment (including tire mounted components of vehicles or equipment) unless he has been specifically authorized to accept such delivery under this order.

(h) *Vehicle manufacturer's certification to his supplier.* (1) In order to receive tires for original equipment, each vehicle manufacturer authorized under the preceding paragraph must certify to his supplier not later than the 15th day of the month preceding the first month of the quarter in which shipments are to be made, in substantially the following form signed by an authorized official:

Agency identification number or symbol
----- The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that he is authorized to accept delivery of the following tires for his production during the quarterly period commencing ----, 1944; that the monthly deliveries specified will not result at any time in an inventory exceeding 10 days' supply based upon his total authorized monthly production:

Size Ply Type Quantity

The identification number shall consist of the appropriate symbol followed by the major program number (see Table I, unless authorization is issued by claimant agency).

No certification other than the above is required. The standard form of certification provided in Priorities Regulation 7 may not be substituted.

(2) By using the above certification, a vehicle manufacturer who buys tire mounted components for his production may authorize the manufacturer of the components to accept delivery of tires. On the basis of the certification received from his customer, the manufacturer of the tire mounted components shall use the same certification in placing his orders for tires with a producer. He must place his certified orders within the time prescribed for vehicle manufacturers.

(3) A vehicle manufacturer's authorization for tires may be reduced or cancelled at any time by the War Production Board or claimant agency issuing the same. A manufacturer who is notified that his authorization has been reduced or cancelled must immediately reduce or cancel delivery orders which he has placed under his authorization to the extent necessary to bring scheduled deliveries within the authorized amount.

(4) A vehicle manufacturer's authorization for tires may be increased by the War Production Board or claimant agency issuing the same at any time during the quarter covered by the authorization.

In placing orders under an increase in authorization, a vehicle manufacturer must certify to the producer that he does so under "Increase dated _____," and in addition, must use the above certification for vehicle manufacturers signed by an authorized official. This may be done by preceding the certification with "Increase dated _____" (inserting date of increase). If the vehicle manufacturer is unable to place his certified order for additional tires, it may be referred to the Office of Rubber Director, War Production Board, for placement.

The procedure described in (2) above may be followed in authorizing a manufacturer of tire mounted components to receive tires under the increase, but the increase must be identified by date in the certification.

(5) No manufacturer shall certify an order for original equipment tires until he has received his authorization under this order.

Replacement

(i) Replacement by procuring claimant agency. In order to receive tires for replacement purposes under its allotment for any quarter, a claimant agency which purchases tires must certify to its supplier on or before the 15th day of the month preceding the quarter in substantially the following form signed by an authorized official:

Agency identification symbol _____.
The undersigned certifies that the claimant agency identified by the above symbol is authorized to procure the following tires for

replacement during the quarter commencing _____, 1944 and that the tires have been charged against its allotment for that period:

Size	Ply	Type	Quantity
------	-----	------	----------

Open Capacity and Unplaced Orders

(j) Placement against open capacity. Unplaced certified orders may be referred to the Office of Rubber Director, War Production Board, for placement on the basis of open capacity reports received from producers. Unplaced orders must be received by the Office of Rubber Director on or before the 20th day of the month preceding the first month of the quarter for which the orders are certified.

(k) Report by producer of his open capacity. Each producer shall report to the Office of Rubber Director, War Production Board, by letter not later than the 20th day of the month preceding the first month of the quarter, the open capacity he has available for the production of tires in each group and sub-group, after making provision for the scheduling of all orders placed with him as of the last day for placement of orders for production during the quarter. This report shall be based upon the percentage allocation of his production facilities made by directive issued to him under paragraph (e).

Producer's Acceptance and Shipment of Orders

(l) General restrictions on acceptance. Unless otherwise directed under the provisions of this order, no producer shall accept or fill any orders for tires except:

(1) Orders certified under paragraphs (h) or (i) and presented to him within the prescribed time for placement; (2) orders for indirect military replacement.

Orders certified under paragraphs (h) or (i) must be presented not later than the 15th day of the month preceding the first month of the quarter in which shipments are to be made, except certified orders based upon an increase in a vehicle manufacturer's authorization, which may be presented at any time during the quarter.

(m) Acceptance or fulfillment of orders in excess of authorized production. No producer shall accept or fill any orders for tires to be delivered in any quarter in excess of the percentage allocation of his facilities for the particular class of order established by his production directive issued under paragraph (e), unless otherwise directed under the provisions of this order. No producer shall accept orders in excess of 100% of his expected production for the quarter.

(n) Limitation on size of shipments. No producer may ship in any calendar month to a vehicle manufacturer or

claimant agency more than 40% of the tires in any size or type scheduled by him for shipment during the quarter to the particular manufacturer or agency under certified orders unless he can do so without interfering with other certified orders on his schedule. Shipments for indirect military replacement may be made only to the extent that the shipments do not interfere with the producer's frozen schedule under paragraph (p).

Scheduling Provisions

(o) Directions by claimant agency. A claimant agency which purchases tires may issue the following written directions to a producer: (1) Diverting a particular shipment of tires scheduled for its account by the producer; (2) changing tire sizes to be produced for its account within a particular sub-group but only if the production capacity required and the total number of tires scheduled for its account are not increased by the change.

(p) Frozen production schedule. On the first day of the quarter, each producer's production schedule shall become a frozen schedule within the meaning of Priorities Regulation 18 for the quarterly period, and may not be altered except as provided in that regulation. A producer may, however, accept certified orders based upon an increase in a vehicle manufacturer's authorization unless the production or shipment of any such orders will interfere with his frozen schedule. In addition, written directions may be issued by a claimant agency under paragraph (o).

The following orders shall automatically become part of a producer's frozen schedule:

(1) Orders for original equipment tires which have been certified under paragraph (h) and which the producer has accepted and agreed to ship during the quarter.

(2) Orders placed with him by the Office of Rubber Director, War Production Board on the basis of his open capacity report for the quarterly period.

(3) Orders for replacement tires which he has accepted and agreed to fill during the quarterly period.

(q) Other scheduling provisions. With respect to the production or shipment of tires, the War Production Board may notwithstanding any other order, preference rating, directive, rule, or regulation (except Priorities Regulation No. 18) of the War Production Board or other Governmental agency:

(1) Direct the return or cancellation of any purchase order on the books of a producer.

(2) Direct changes in the production or shipping schedule of a producer.

(3) Cancel purchase orders placed with one producer and direct that they be placed with another producer.

Miscellaneous Provisions

(r) Effect of preference ratings.

Within the limits established by his production directive, a producer shall accept orders certified under paragraphs (h) and (i) in the order in which they are received by him without regard to preference ratings.

(s) Status of unfilled orders at end of quarter. Unless authorized in writing by the Office of Rubber Director, War Production Board, no producer shall carry over any order which he has accepted for delivery during a particular quarter and which he has been unable to produce and ship during that quarter to the following quarter.

(t) Duplication of orders. No purchaser of tires shall duplicate an order for tires in any group or sub-group even though he intends to cancel or reduce his orders to the authorized or allotted amount prior to delivery.

(u) Use of producer's interchangeable facilities. A producer shall use his interchangeable facilities in accordance with List 6, Appendix II, Rubber Order R-1 as amended.

(v) [Deleted May 31, 1944.]

(w) Applicability of regulations. Except as otherwise provided, this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(x) Appeals. Any appeal from the provisions of this order shall be made in writing to the Office of Rubber Director, War Production Board, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(y) Communications. All reports required to be filed under this order and all communications concerning this order shall, unless otherwise directed, be addressed to the Production and Priorities Department, Office of Rubber Director, War Production Board, Washington 25, D. C., Reference: Order R-1.

Issued this 31st day of May 1944.

(d) No person shall agree, offer, solicit or attempt to do any of the foregoing.

SEC. 2. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid, or offered.

SEC. 3. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

SEC. 4. *Relationship of this regulation to other maximum price regulations—*

(a) *The General Maximum Price Regulation.*¹ The provisions of this regulation supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of vegetable waxes and beeswax for which maximum prices are established by this regulation. For example, sales and deliveries of less than two pounds of a vegetable wax or beeswax remain subject to the General Maximum Price Regulation.

(b) *The Maximum Import Price Regulation.*² The provisions of this regulation supersede the provisions of the Maximum Import Price Regulation with respect to sales and deliveries of vegetable waxes and beeswax for which maximum prices are established by this regulation.

(c) *Second Revised Maximum Export Price Regulation.*³ The provisions of this regulation do not apply to sales and deliveries of vegetable waxes or beeswax for export from the United States. Such sales and deliveries shall continue to be subject to the Second Revised Maximum Export Price Regulation.

SEC. 5. *Geographical applicability.* The provisions of this regulation shall be applicable to the forty-eight states of the United States and the District of Columbia.

SEC. 6. *Federal and state taxes.* Any tax upon, or incident to, the sale, delivery, processing, or use of a product covered by this regulation imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the maximum price and in preparing records with respect thereto. If the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and

the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor from whom he purchased.

SEC. 7. *Records and reports.* (a) Every person making sales or purchases of vegetable waxes or beeswax after May 30, 1944, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price contracted for or received and the quantity of each type and grade of such vegetable waxes or beeswax purchased or sold.

(b) Such persons shall keep such other records and shall submit such other reports to the Office of Price Administration in addition to or in place of the records required in paragraph (a) of this section or the reports required by section 12 (a) and Appendix C hereof as the Office of Price Administration may from time to time require.

SEC. 8. *Evasion.* Price limitations set forth in this regulation shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to vegetable waxes or beeswax alone, or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, discount, premium, or other privilege, or other trade understanding, or otherwise.

SEC. 9. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

SEC. 10. *Licensing.* The provisions of Licensing Order No. 1,⁴ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 14 to GMPR, Amdt. 139]

CERTAIN WET CORN MILLING PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Section 6.41 is amended to read as follows:

SEC. 6.41 *Certain wet corn milling products*—(a) *Maximum prices.* The maximum price which any seller may charge any class of purchaser for corn starch and dextrine products in bulk, corn syrup unmixed in bulk, corn syrup solids in bulk, and for crude corn sugar in bulk shall be:

(1) For corn starch and dextrine products in bulk, the sum of:

(i) His maximum price per hundred-weight to the same class of purchasers established by the General Maximum Price Regulation for the same type, condition, brand (if any), and container type and size; and

(ii) \$0.62 per hundred-weight in the case of any type or grade of corn starch or dextrine product in bulk with an average March 1942 moisture content between and including 11½ percent and 14 percent. In the case of any type or grade

of corn starch or dextrine product in bulk which had a March 1942 moisture content below 11½ percent or above 14 percent the maximum shall be computed by adjusting the figure \$0.62 on the basis of dry starch of 11½ percent moisture content. In the case of products not wholly corn starch or dextrine the figure \$0.62 shall be adjusted by multiplying it by the percentage (by weight) of the corn starch or dextrine contained therein, also on the basis of dry starch of 11½ percent moisture content.

(2) For bulk corn syrup unmixed the sum of:

(i) His maximum price per hundred-weight to the same class of purchasers established by the General Maximum Price Regulation for the same type, condition, brand (if any), and container type and size; and

(ii) \$0.30 per hundred-weight; *Provided, however,* That for sales in barrels or half-barrels the resulting figure may be further increased by

(a) \$0.24 per hundred-weight for sales in barrels.

(b) \$0.29 per hundred-weight for sales in half-barrels.

(3) For corn syrup solids in bulk, and for crude corn sugar in bulk, the sum of:

(i) His maximum price per hundred-weight to the same class of purchasers established by the General Maximum Price Regulation for the same type, condition, brand (if any), and container type and size; and

(ii) \$0.30 per hundred-weight.

(b) *Definitions.* As used in this section, the term:

(1) "Corn starch and dextrine" means the carbohydrates extracted from corn grain by the wet milling process commercially dry, in suspended form, thin boiling, thick boiling, oxidized, rolled or roasted, but does not include products commercially known as refinery products.

(2) "Corn syrup unmixed" means all commodities manufactured by the wet corn milling process commercially known as refinery products except crude corn sugar, hydrol or corn molasses, corn syrup solids, and fully refined sugar.

(3) "Corn syrup solids" means all types and grades of dehydrated commodities manufactured by the wet corn milling process and commercially known as refinery products having a dextrose equivalent of 65 percent or less.

(4) "Crude corn sugar" means those commodities manufactured by the wet corn milling process and commercially known as refinery products having an average dextrose content between and including 70 percent to 80 percent; 70 sugar and 80 sugar when used in reference to crude corn sugar refer to minimum average dextrose content.

(5) "Bulk" or "in bulk" means in tank cars, tank wagons, barrels, half-barrels, steel drums, in bags, in bulk in cars, or in other containers of more than 10 pounds net weight, except that when sales of corn starch and dextrine are made to any government purchasing agency, "bulk" or "in bulk" means in tank cars, tank wagons, barrels, half-

barrels, steel drums, in bags, in bulk in ears, or in other containers of more than 4 pounds net weight.

This amendment shall become effective May 30, 1944.

WASHBOARDS

ADJUSTMENT OF MAXIMUM PRICES

Amendment No. 14 to Order No. A-2 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

An opinion accompanying this Amendment No. 14 to Order No. A-2 under § 1499.159b of Maximum Price Regulation No. 188 has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Order No. A-2 under Maximum Price Regulation No. 188 is amended in the following respect:

1. A new paragraph (a) (15) is added as follows:

(15) *Washboards.* (i) In order to remove price impediments to the supply of washboards for civilian use in cases where the loss of the seller's output would raise the average level of washboard prices to the trade, this adjustment provision permits the granting of relief to manufacturers and jobbers of these washboards. An adjustment may be granted if:

(a) The manufacturer's present ceiling price is below the prevailing market level of maximum prices of competitive manufacturers producing a similar washboard:

(b) The manufacturer's entire operation is being conducted at an over-all loss, or will be so within 30 days.

(c) The established maximum price does not permit the manufacturer to recover his total unit costs for the washboard.

(ii) A manufacturer's maximum price for washboards adjusted under authority of this subparagraph will not exceed either of the following:

(a) A price equal to the manufacturer's total unit cost to make and sell the washboard; or

(b) A price equal to the prevailing market level of maximum prices of similar washboards manufactured by competitive firms.

*Copies may be obtained from the Office of Price Administration.

(iii) Any order granting an adjustment under this subparagraph may also adjust the maximum prices for sales of these washboards by jobbers. Such adjustments will be made only if it is found that jobbers would not otherwise receive their normal peacetime dollar margins; and the adjustments will in no event exceed the dollar amount of the manufacturer's adjustment.

This Amendment No. 14 shall become effective on the 1st day of June, 1944.

FELT BASE FLOOR COVERING

ADJUSTMENT OF MAXIMUM PRICES

Amendment No. 15 to Order No. A-2 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

An opinion accompanying this Amendment No. 15 to Order No. A-2 under § 1499.159b of Maximum Price Regulation No. 188 has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Order No. A-2 under Maximum Price Regulation No. 188 is amended in the following respects:

1. A new paragraph (a) (14) is added to read as follows:

(14) *Felt base floor coverings.* (i) The purpose of this adjustment provision is to remove price impediments to the continued supply of felt base floor coverings by manufacturers, under the conditions stated below, in cases where the cost of living will not be affected, and where the supply would otherwise be lost. And adjustment may be made if it is found that:

(a) The manufacturer's maximum prices for his felt base floor coverings are below the prevailing level of maximum prices for other manufacturers of the same or substantially the same articles; and

(b) His maximum prices are below his total costs to make and sell his felt base floor coverings; and

(c) His entire operation is being conducted at an overall loss, or will be so within thirty days.

(ii) A manufacturer's maximum prices for felt base floor coverings may be adjusted under authority of this subparagraph in amounts sufficient to permit the manufacturer to make and sell felt base floor coverings without loss, but in no event shall the adjusted maximum price on any one item exceed the prevailing market level of maximum prices of similar felt base floor coverings manufactured by competitive firms.

(iii) Any order granting an adjustment under this subparagraph may also adjust the maximum prices for sales of these felt base floor coverings by jobbers. Such adjustments will be made only if it is found that jobbers would not otherwise receive their normal peacetime dollar margins; and the adjustments will in no event exceed the dollar amount of the manufacturer's adjustment.

This amendment shall become effective on the 1st day of June 1944.

[RO 5C, Order 5]

GASOLINE RATIONING IN OKLAHOMA

AUTHORIZATION TO ACCEPT CLASS R COUPONS

Pursuant to the authority conferred upon the Deputy Administrator In Charge of Rationing by § 1394.8153 (b) (4) (iv) of Ration Order No. 5C, as amended, the following order is prescribed:

(a) *Findings.* Under the laws of the State of Oklahoma, tax exempt gasoline for nonhighway purposes may be sold by licensed distributors and the retail facilities operated by such distributors for which duplicated licenses have been issued, and such transfers must be made in quantities of fifty gallons or more. Purchasers of tax exempt gasoline are required to make application to the State Tax Commission, file a signature card and are then issued a tax exempt permit number. Purchase permits expire on the 31st day of December each year; distributors' licenses remain in force until surrendered, suspended or cancelled. Licenses are revocable for a violation of any provision of the statute.

Tax exempt gasoline may be sold to farmers for agricultural purposes, aircraft and aircraft schools financed by the Federal Government or State and Federal Governments for training of enlisted army men, industrial establishments for cleaning and dyeing purposes or for manufacturing paints and rubber goods (all other industrial users are subject to tax), State Boards of Public Welfare in the distribution of commodities donated to the State by the United States or any Bureau or Commission thereof for relief among needy citizens,

¹⁸ F.R. 15937.

and district school busses whether owned, leased or hired and used solely for the transportation of children to and from school. All farm equipment and public welfare trucks used for the above purposes must be registered with the Tax Commission.

At the time of a bulk sale the seller is required to execute a delivery invoice giving the date of sale or delivery, name, location and license number of the seller, the quantity sold or delivered, price per gallon and total sale price, name of buyer and whether the tax is to be paid by seller or purchaser. If the bulk sale is tax exempt the seller must execute a tax exemption invoice in triplicate which is signed by both seller and purchaser and stipulates the number of gallons purchased, the purpose for which the fuel is to be used, date and place of purchase, name and license number of seller, name, address and exemption permit number of purchaser and place of delivery. Copies of this invoice are retained by the buyer and the seller, and the original is transmitted to the Tax Commission in lieu of taxes. Tax exemption invoices are serially numbered in book form and each invoice must be accounted for. Both seller and buyer must retain copies of these invoices for a period of three years.

Approximately 2300 distributors' licenses or duplicates thereof have been issued. Of this number 800 to 1000 represent refineries or bulk operators who are not required to apply for authorization to accept "R" coupons. Therefore, only about 1300 additional operators would be authorized to accept "R" coupons under this order. Each of these bulk sellers is required to maintain records of all purchases, receipts and sales and retain copies of delivery and tax exemption invoices for a period of three years. Each outlet is required to file a monthly report with the State Tax Commission showing the daily retail sales and an itemized statement of bulk sales setting forth the amount of gasoline sold, delivery and tax exemption invoice numbers, and name and address of purchasers. Original tax exemption invoices must be attached in order to obtain credit for such tax exempt sales.

Industrial users of non-highway gasoline for purposes other than cleaning or dyeing or manufacturing paints and rubber goods are not tax exempt. Retail distributor outlets should not be authorized to accept "R" coupons from such users since verification of the proper use of "R" coupons cannot be made. No problem is created by this decision as a very large percentage of such gasoline is delivered in tank wagons or purchased at bulk plants not subject to the prohibition against the acceptance of "R" coupons. In the small number of cases where tank delivery facilities are not available, "E" coupons may be made available. The order, therefore, should

be limited to the acceptance of "R" coupons for the transfer of tax exempt gasoline only.

In substance the laws of the State of Oklahoma carefully safeguard the sale of tax exempt gasoline and contain strict standards in order to assure that such transfers will be made for non-highway purposes. The issuance of tax exemption invoices and the keeping of full records together with the right to inspect such records will enable the investigators of the Office of Price Administration to determine whether or not prohibited transfers are being made. Hence, it appears that authority may be extended to licensed distributors and retailers to whom duplicate licenses have been issued, located in the State of Oklahoma, to make tax exempt transfers of gasoline in exchange for Class "R" coupons to duly licensed purchasers without facilitating the unlawful acquisition of Class "R" coupons.

(b) *Order.* It is hereby ordered that licensed distributors in the State of Oklahoma who are permitted by that State to make tax exempt sales of gasoline are authorized to accept Class R coupons at their retail facilities for which duplicate licenses have been secured for such tax exempt sales where these sales are made in quantities of 50 gallons or more, for non-highway use, and are made as tax exempt sales in compliance with the laws of the State of Oklahoma; *Provided*, That such distributors and their retail facilities maintain records of such sales, at the place of business where such transfers of gasoline are made, in accordance with the laws and regulations of the State of Oklahoma and permit employees of the Office of Price Administration to inspect such records during business hours.

(c) *Definitions.* The definition of terms and rules of construction contained in § 1394.7551 of Ration Order 5C shall apply to the order.

(d) *Effective period.* This order shall become effective June 1, 1944, and shall remain in effect until modified or revoked.

Issued this 31st day of May 1944.

Deputy Administrator,
in Charge of Rationing.
